SUMMARY

Motivated and detail-oriented professional currently working in Administration, transitioning into a career as a MERN Stack Developer. Skilled in building responsive and scalable web applications using MongoDB, Express.js, React.js, and Node.js, with strong knowledge of REST APIs, database management, and modern frontend technologies. Combining administrative experience with technical expertise, and a passion for developing innovative and user-friendly software solutions.

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, MUI, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Concepts: React Hook, CRUD, Authentication, API Integration, Responsiveness, Axios, Redux

Tools & Technologies: Vercel, Netlify, OnRender, VS Code, Postman, Github, Figma

PROJECTS

Real-Time News Application (<https://ancnews.netlify.app>) | MERN Stack, Tailwind CSS

- Built a full-stack dynamic news platform featuring real-time data fetching and a centralized content management system. Managed database schemas in MongoDB to ensure efficient storage and retrieval of daily news articles.

E-Commerce Platform (<https://aurashops.netlify.app>) | MERN Stack, Tailwind CSS

- A MERN-based e-commerce platform with product management, cart system, secure authentication, and online payment integration.

Tour Package Booking Platform (<https://auraholiday.netlify.app>) | MERN Stack, Tailwind CSS

- A full-stack web application for browsing, booking, and managing tour packages with user authentication, dynamic listings, and real-time booking management.
